

We at the Gray Institute are cognizant of the rising economic cost of doing business. In keeping with our mission statement of striving to accomplish unrestrained creativity and functional simplicity while remaining intensely focused on assisting others, we have made it possible to **permanently reduce** the cost of our entire library of DVD and VHS educational videos. All Functional Video Digest Series and Fast Function Video's are approved for Continuing Education Units (CEU's).*

Effective June 1st, 2008, every DVD and VHS video in stock will be offered as follows.
